The association “Verein zur Förderung und Integration ausländischer Jugendlicher” (association for the support and integration of young foreigners) was founded in 1980 and is behind DAJC (“Deutsch-Ausländischer Jugendclub”, youth club for Germans and Foreigners). Due to different developments in DAJC, the name of the association was changed in 2009, to „Verein zur Förderung und Integration von Jugendlichen mit Migrationshintergrund und ihren Familien e. V.” (association for the support and integration of young people with a migration background and their families). In order to still be recognised, the acronym DAJC was kept.

DAJC is committed to promote a living environment based on respect and tolerance, for all members of our immigration society. DAJC openly and actively criticizes racism and discrimination, defends the rights of those who are marginalised and supports people and organisations to stand in for their interests. DAJC promotes an inclusive society in which each individual can participate and contribute to social changes.

SUPPORT FOR SCHOOL STUDENTS

In our low-threshold and voluntary school support, we help children and young people from the age of 10. We offer structured and open work groups with different focus points (e.g.: special school subjects, preparation for exams), supported by tutors qualified in different fields. We elaborate different kinds of support, targeting the current needs and knowledge of the participating students, for example German classes.

YOUTHCLUB

With our open youth work, we support children and young people in developing a personality. We particularly strengthen the potential of young people with a migration background. A low-threshold offer, the youth club is used by young people as place in the city centre to meet, talk, play, have fun and be creative.

We work against discrimination. In this work, we focus on reflecting the experiences of feeling discriminated, situations in which we ourselves behaved in a discriminatory way, and on developing strategies to fight discrimination.

DAJC provides a space for girls and young women to be creative and to communicate with each other. Furthermore, we offer counseling and assistance for individual cases. The goal of our girls project „Peperona“ is to help girls and young women reflect their situation, get a better awareness of their own needs and find ways to fulfill them. Our visitors get support from us in the process of strengthening their self-confidence and self-esteem, in order to be better prepared to stand in for themselves.

It is our job to support families and help them develop their education skills. Since women still do most of the work of educating children, one particular part of our work is focused on promoting participation of women. We support women to take up public space and we are committed to defend gender equality. We offer them a possibility to communicate with each other through various projects and to join education or sports programmes, such as the Women’s conversation group, a German class (with provided childcare) or a Women’s swimming class.
